Q1: For each session that applies, please respond to this statement: One thing I learned that I did not know is...

Moving Forward with MTSS & Trauma Informed Care

The prevalence of the number of students who experience Traumatic Experiences in our classrooms and how that can impact their health even in later years.

Q2: For each session that applies, please respond to this statement: One thing I learned that will positively impact my job performance is...

Moving Forward with MTSS & Trauma Informed Care

That I can truly make a difference in a child's life by responding with care and concern. Simply by loving that child, and creating a safe, connected and caring school environment is going to help our students who need it so badly. I know that this fits the MTSS framework and am excited to move forward with this work!

Q3: For each session that applies, please respond to this statement: I would like to learn more about... Please specify what you would like to know.

Moving Forward with MTSS & Trauma Informed Care

How we can incorporate community services within our schools to help build relationships, and provide deeper levels of care for our families and staff, and communities.

Q4: I felt that this day was a valuable use of my time.

Strongly Agree

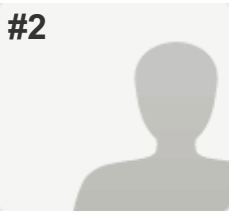

Q5: The most valuable part of the day for me was...

Being able to present our information to the whole staff at the ISD. Having the opportunity to have that captive audience is priceless.

Q6: The day could be improved if...

We could have had just a smidge more time for questions/comments. :)

we went to sessions that apply to our positions, would a teacher like to spend all day in a bus training, i doubt it, same as bus drivers, bus aides, custodians, we feel like it was a wasted day about things that have nothing to do with our jobs. I would like to see sessions that pertain to the functions of my job instead of learning about MTSS which has nothing to do with driving a bus. I understand it may be important to some but not to a bus driver or custodian. Some people should be exempt from attending these and sent to work doing other things like cleaning our bus or driving our routes, or cleaning. It makes a long day when it doesn't pertain to your needs.

I think it would be advantageous to move back to the old format. I don't know how many responses you'll receive, but I have heard many negative comments about opening day. The comments are not directed towards the content of the sessions, just that the time would be much more valuable in the building. Based on the survey questions that you have decided to ask, I'm not sure whether people will share that or not.

Q5: The most valuable part of the day for me was...

the end of the sessions. I hate to be a Debbie Downer, but my time would have been much better put to use had I been able to work in my own setting and get ready for students to show up.

Q6: The day could be improved if...

the sessions only lasted half a day. I found it a waste of my time when I have to sit in on sessions that did not pertain to me. It seemed that most of the sessions were geared toward certified staff, not support staff. How about next year the support staff stay back in their buildings and get something productive done? It would be more beneficial than listening to MTSS, AdvancEd, or some of the other topics that don't directly involve some of us. Sorry -- I know people put in a lot of time to do the presentations, but topics that are geared toward all employees would be much more interesting. Otherwise, direct the day at the certified staff and let the rest of us work on our own duties in our buildings.
