### Keynote: Jenni Donohoo

Dr. Donohoo will focus the three days of Summer Leadership Academy 2016 on what it means to intentionally interrupt the status quo in order to overcome barriers to learning that impede permanent change. Participants will learn:

- ▶ How collaborative inquiry can be used as a high leverage strategy and powerful design for professional learning.
- ▶ How to facilitate the collaborative inquiry process, and
- ▶ How to bring the collaborative inquiry process to scale in a school or district.

### Speaker Bio

Jenni Donohoo is a Research and Program Evaluation Consultant with the Greater Essex County District School Board in Ontario, Canada. Her classroom teaching experiences include elementary, secondary and post-secondary education. In her role of supporting system leaders in developing professional learning communities, Jenni has promoted collaborative inquiry as a viable approach to school improvement. While serving as the President of Learning Forward Ontario, Jenni designed a program that immersed educators in the collaborative inquiry process so that they could experience it and in turn, facilitate teams back in their schools and districts. She also helped to design and teach a course on facilitating collaborative inquiry for the Ontario Principals' Council. Jenni believes that collaboration and reflection are essential elements in developing formal and informal leadership in schools and that leadership development is the key to sustaining meaningful changes in practice.
